

DNA Marker

100 bp Ladder, 11 Fragments

Product contents:

P/N: E3010

1x500ul

Sufficient for approximately 100 loads

Introduction:

Avans DNA Marker is 11 DNA fragment ladder covering wide range of 10-1,500 bp sizes. Conveniently delivered in ready-to-use format and ideal for agarose gel electrophoresis, Northern, Southern, and related DNA analysis applications.

Protocol:

Swirl tube well.

Add ~5 μ l per load onto agarose gel prior to electrophoresis.

Shipping and Storage Conditions :

Shipped in RT

Store in 4 °C for short term

Store in -20 °C for long term
